RE: Your 2011 Financial Disclosure Request

Dear Committee,

Thank you for your obvious careful consideration of the above referenced filling, though we still have a disagreement over compliance under the circumstances and the characterization of my explanation. In any event, this responds to and follows specifically your directions in your letter dated July 18, 2013.

1) The U.S. Department of Education (USDOE) student loan from the information I have just been provided shows an origination of May 2010, while the 2) American Education Services (AES) student loan was February 2011.

Though I had hoped to make an appearance before the committee on this matter, this response should be in full compliance with your instructions. Thank you again for your cautious reflection into this matter.

Sincerely,

Congressman Louie Gohmert
