This information is for general guidance and should not be used for tax purposes. The cost basis for securities not purchased through this broker dealer, or securities delivered into your account subsequent to purchase, is provided by you and may not be accurate. We make no representation as to the accuracy of the cost basis figures. Total realized and unrealized gains/losses values do not include securities for which cost basis is unavailable.

Cost basis for fixed income tax lots has been amortized (for securities purchased at a premium) or accreted (for securities purchased at a discount), when possible, for applicable securities.

The market value for options is based on the current bid/ask. Where applicable, the change in price is based upon the last actual trade.

These valuations reflect securities or assets held in your account. The prices indicated are obtained from sources considered reliable, but may not represent actual market values. For bonds that receive principal paydowns, bond valuations may change before principal payments are received from the issuer. As a result, understated account valuations will appear on this page until payments are received. Payments are received from the issuer well before month-end statements.

<sup>nc</sup> Cost information for this tax lot will not be reported to the IRS. Unless otherwise indicated, cost for all other lots will be reported to the IRS. Please contact your Financial Advisor for assistance.

Quotes are delayed at least 15 minutes during market hours, unless otherwise indicated. Note that some securities such as bonds and mutual funds are not priced in real time but are priced on a daily or periodic basis. Real-time quotes and market data is provided by a third party and is believed to be accurate. Wells Fargo Advisors, LLC does not guarantee the accuracy of this data.
