First Clearing LLC

First Clearing, LLC ("FCC"), an indirect majority owned subsidiary of Wells Fargo & Company, is a clearing member of the National Securities Clearing Corporation ("NSCC") and is a member of the New York Stock Exchange ("NYSE"). FCC carries your account and acts as your custodian for funds and securities deposited with us directly by you and securities received from our affiliated broker-dealer, Wells Fargo Advisors, LLC ("Wells Fargo Advisors") as a result of transactions through the process for your account. I wish you, FCC publishes on its web site www.tradefirstclearing.com a statement of the terms and conditions of the account opening process for your account. FCC may, without inquiry or investigation, accept from Wells Fargo & Company, Wells Fargo Advisors (i) orders for the purchase or sale of securities for your account on margin or otherwise, and (ii) any other instructions concerning your account.

All activity and positions on this statement are shown as of the date a trade is entered on the brokerage trading system (i.e., the trade date). Proceeds from the sale of securities and costs for the purchase of securities are not reflected through your account until the actual settlement date of the trade, which may be up to three business days after the trade date (or longer for certain securities with an extended settlement date).

Pricing of securities

Securities prices reflected on your statement may vary from actual quotation value. Prices shown are provided by outside quotation services which we believe to be reliable but in the nature of market data the accuracy of such prices cannot be guaranteed, or in the absence of such prices, as estimated by Weiss Research Advisors using the firm's history of trading activity. Such prices may not reflect actual trades and do not constitute a commitment to sell. Market rates are priced as of the close of the statement period. Unlisted shares may be valued at the current "close price" published "bid-price," and if none exists, the last reported transaction if occurring within the last 45 days. Prices of securities not actively traded may not be available and are indicated by "N/A." Corporate and municipal bonds include all other listed income securities, are priced by a computerized pricing service or, for less actively traded issues, by utilizing a yield-based matrix system to arrive at an estimated market value. Listed options are priced based on theoretical pricing. "Bid-ask" prices and the last reported trade. Mutual fund shares are priced at net asset value. Shares of direct participation program ("DIP") and real estate investment trusts ("REIT") securities that are not listed on a national exchange are generally included because no formal trading rules apply for these investments, thereby making valuations more difficult. The fair market value of such securities is determined by the issuer or its agent, as provided by the management of each program and requires that management's estimate of the investor's interest in the assets of the program. See statement sections for additional pricing information. Prices for hedge funds and certain managed futures funds are provided on a monthly basis. Other managed futures funds may be priced once or more frequently. Long-term certificates of deposit, maturity beyond one year from date of issue(s) are priced using a market value pricing model. Generally, the sale or redemption price of your securities may be higher or lower than the prices shown on your statement. For an actual quote, speak to Your Financial Advisor.

Estimated Annual Income (EAI), when available, reflects the estimated amount you would earn on a security if you held it in the current position and its related income (including interest) for a year. Estimated Annual Yield (EAY), when available, reflects the current estimated annual income derived by the current value of the security as of the statement closing date. EAI and EAY are estimates and the actual income and yield might be lower or higher than the estimates shown. EAI amounts, EAY reflects only the income generated by an investment, it does not reflect charges in its price, which may fluctuate. The information used to derive these estimates is obtained from various outside sources; CDC and our Firm are not responsible for incorrect or missing estimated annual income and yields. Past performance is not a guarantee of future results.

Income summary

The income surpluses displayed as income are recorded in the tax system as of period end date. The totals in the Cash Flow Statement may not match the totals in the Income Statement due to reclassifications of other contributors made in the tax system. Therefore, you may have certain products that are not included in these figures and whose income is only available on the tax forms sent to you at year-end. Reclassifications and other tax reporting requirements alter these numbers both during and after year-end. You should rely only on tax reporting documents. Contact your tax advisor if you have any questions about the tax consequences of your brokerage activity.
