OFFICE OF THE CLERK
U.S. HOUSE OF REPRESENTATIVES

Dear Ms. Haas:

It has come to my attention that my wife has retirement plans that were unintentionally omitted from my previous financial disclosure filings. My wife was previously eligible for a defined benefit plan from her employer, Deaconess Hospital. That plan was cancelled as of December 31, 2012. On December 31, 2012, the defined benefit plan was replaced by a 457(f) retirement plan. It is my understanding that Deaconess Hospital solely controls the investments of these plans and determines where the funds are or will be invested. In an effort to be as transparent as possible, the information below covers her previously unreported retirement plans:

Deaconess Hospital 457(f) account – because the plan started on December 31, 2012, it had no value to be reported on the 2012 financial disclosure but may have value to be reported in the 2013 financial disclosure.

Deaconess Hospital Defined Benefit Plan – The actual value of the plan will be determined at the time of retirement but is estimated to currently be \$2064 per month.

Please let me know if you have any questions or need any additional information regarding this amended financial disclosure filing.

Sincerely,

Larry Bucshon, M.D.
Member of Congress
