New-Treasury regulations require that we report your adjusted cost basis and classify the gain or loss as either long-term or short-term on the sale of covered securities acquired on or after January 1, 2011. These regulations also require that we make basis adjustments due to wash sales, certain corporate actions and transfers by gift or inheritance, which will be reflected on your Form 1099-B. This section may not reflect all of the basis adjustments we are required to make for tax reporting purposes. The information in this section is provided for informational purposes only and should not be used in the preparation of your income tax returns. Please refer to the Expanded Disclosures for additional information.

D - Periodic payments on this security consist of interest and option premium. The cost basis for this tax lot is reduced by the option premium received. The interest portion is reported on Form 1099-INT.
R - The cost basis for this tax lot was adjusted due to a reclassification of income.

THIS PACKAGE INCLUDES YOUR FORM 1099 (COPY B FOR RECIPIENT). PLEASE RETAIN FOR TAX PREPARATION PURPOSES.

The above information is being furnished to the Internal Revenue Service (except as indicated). If you are required to file a return, a negligence penalty or other sanction may be imposed on you if the income is taxable and the IRS determines that it has not been reported.

Reportable Tax Information

Starting with Tax Year 2011, the Form 1099-B ("Proceeds From Broker and Barter Exchange Transactions") reporting was modified to comply with Internal Revenue Service (IRS) requirements regarding substitute tax forms. Consistent with that IRS guidance, we are providing information in a format similar to what you are now required to provide with your individual tax return on IRS Form 8949 and Schedule D (Form 1040). Please Note: Cost basis information is being sent to the IRS only for stock acquired by you on or after January 1, 2011, if it was issued by a corporation and not eligible for the average cost basis election; and for stock acquired by you on or after January 1, 2012, that was issued by a regulated investment company (RIC) or as part of a dividend reinvestment plan (DRIP) and those shares are eligible for the average cost basis election. The reporting of the cost basis for a sale, maturity or expiration of debt instruments, rights, warrants, puts and calls is not currently required. In addition, no cost basis reporting is required on the Form 1099-B for REMICs, CMOs and WHFIs, because they are subject to reporting under different rules. When it is available, we are providing cost basis information for some of those securities as supplemental information to assist you with completing your tax return. When completing IRS Form 8949, you must check the correct box to indicate when we provided cost basis information to the IRS, and when we did not. In accordance with Federal tax regulations, the cost basis information will not reflect tax accounting elections you have made, positions that you hold elsewhere that can impact the information we have provided, or organizational actions (such as mergers) for which the issuer provided no information on IRS Form 8937. As a result, IRS Form 8949 now provides you with the format to notify the IRS of any cost basis adjustments that you deem necessary or as directed by your personal tax advisor or counsel. Please see the "Understanding your 2012 1099 statement" insert that was included in your 1099 package for a detail explanation of these changes.

Details of Reportable Tax Information

While only the Form 1099 box totals are reported to the IRS, the following specific transaction detail is being provided to you for courtesy purposes. The IRS box numbers referenced for individual items listed below comprise the totals which appear on the actual Forms 1099, shown on the summary page of this package. Please consult with your Financial Advisor or Tax Advisor regarding specific questions.

Tax reporting requirements can create differences with the amounts previously reported in monthly client statements. If you have an investment in a mutual fund, regulated investment company (RIC), real estate investment trust (REIT), or unit investment trust (UIT), some of those issuers provide reclassification information after the original tax form is printed. We will issue an amended form for information received after your original tax forms are generated.

This information is provided for courtesy purposes only. Each individual taxpayer should consult with a Tax Advisor as to any additional reporting requirements or adjustments. THIS INFORMATION IS NOT VERIFIED OR GUARANTEED BY FIRST CLEARING, LLC TO BE ACCURATE FOR EACH TAXPAYER'S UNIQUE REPORTING REQUIREMENTS. THEREFORE, YOU SHOULD NEVER ASSUME THIS STATEMENT IS ACCURATE IN LIEU OF COMPLETING YOUR TAX RETURN AND CONSULTING WITH YOUR TAX ADVISOR.

Federal tax reporting requirements will create differences between the information presented here and what appears on your Form 1099-B, including but not limited to the following situations:

* Cost basis for many fixed income tax lots has been amortized (for securities purchased at a premium) or accreted (for securities purchased at a discount), when possible, for applicable securities. For securities that were purchased at an Original Issue Discount (OID), only those positions whose cost basis has been adjusted will reflect the impacts of the OID accruals on the original-cost basis. The original issue discount amount reported on your Form 1099-OID is not adjusted for market discount, acquisition premium or bond premium. Therefore, the amortization and accretion adjustments used on this statement may not be consistent with the Form 1099-OID amount because the reporting requirements on the Form 1099-OID are different.

* The Original Price represents the unadjusted price of the security. The Original Price can be used to calculate the original unadjusted cost of the security.

* Long-term capital gains reported by a RIC or REIT appear on Form 1099-DIV only, as noted in the instructions for that form.

* Lots closed due to transfers or journals will not be reflected in the Realized Gain/Loss Statement, or on the Form 1099-B.

THIS PACKAGE INCLUDES YOUR FORM 1099 (COPY B FOR RECIPIENT) - PLEASE RETAIN FOR TAX PREPARATION PURPOSES

The above is important tax information and is being furnished to the Internal Revenue Service (except as indicated). If you are required to file a return, a negligence penalty or other sanction may be imposed on you if the income is taxable and the IRS determines that it has not been reported.

Reportable Tax Information

Starting with Tax Year 2011, the Form 1099-B ("Proceeds From Broker and Barter Exchange Transactions") reporting was modified to comply with Internal Revenue Service (IRS) requirements regarding substitute tax forms. Consistent with that IRS guidance, we are providing information in a format similar to what you are now required to provide with your individual tax return on IRS Form 8949 and Schedule D (Form 1040). Please Note: Cost basis information is being sent to the IRS only for stock acquired by you on or after January 1, 2011, if it was issued by a corporation and not eligible for the average cost basis election; and for stock acquired by you on or after January 1, 2012, that was issued by a regulated investment company (RIC) or as part of a dividend reinvestment plan (DRIP) and those shares are eligible for the average cost basis election. The reporting of the cost basis for a sale, maturity or expiration of debt instruments, rights, warrants, puts and calls is not currently required. In addition, no cost basis reporting is required on the Form 1099-B for REMICs, CMOs and WHFITS, because they are subject to reporting under different rules. When it is available, we are providing cost basis information for some of those securities as supplemental information to assist you with completing your tax return. When completing IRS Form 8949, you must check the correct box to indicate when we provided cost basis information to the IRS, and when we did not. In accordance with Federal tax regulations, the cost basis information will not reflect tax accounting elections you have made, positions that you hold elsewhere that can impact the information we have provided, or organizational actions (such as mergers) for which the issuer provided no information on IRS Form 8937. As a result, IRS Form 8949 now provides you with the format to notify the IRS of any cost basis adjustments that you deem necessary or as directed by your personal tax advisor or counsel. Please see the "Understanding your 2012 1099 statement" insert that was included in your 1099 package for a detail explanation of these changes.

Details of Reportable Tax Information

While only the Form 1099 box totals are reported to the IRS, the following specific transaction detail is being provided to you for courtesy purposes. The IRS box numbers referenced for individual items listed below comprise the totals which appear on the actual Forms 1099, shown on the summary page of this package. Please consult with your Financial Advisor or Tax Advisor regarding specific questions.

Tax reporting requirements can create differences with the amounts previously reported in monthly client statements. If you have an investment in a mutual fund, regulated investment company (FIC), real estate investment trust (REIT), or unit investment trust (UIT), some of those issuers provide reclassification information after the original tax form is printed. We will issue an amended form for information received after your original tax forms are generated.

This information is provided for courtesy purposes only. Each individual taxpayer should consult with a Tax Advisor as to any additional reporting requirements or adjustments. THIS INFORMATION IS NOT VERIFIED OR GUARANTEED BY FIRST CLEARING, LLC TO BE ACCURATE FOR EACH TAXPAYER'S UNIQUE REPORTING REQUIREMENTS. THEREFORE, YOU SHOULD NEVER ASSUME THIS STATEMENT IS ACCURATE IN LIEU OF COMPLETING YOUR TAX RETURN AND CONSULTING WITH YOUR TAX ADVISOR.

Federal tax reporting requirements will create differences between the information presented here and what appears on your Form 1099-B, including but not limited to the following situations:

* Cost basis for many fixed income tax lots has been amortized (for securities purchased at a premium) or accreted (for securities purchased at a discount), when possible, for applicable securities. For securities that were purchased at an Original Issue Discount (OID), only those positions whose cost basis has been adjusted will reflect the impacts of the OID accruals on the original cost basis. The original issue discount amount reported on your Form 1099-OID is not adjusted for market discount, acquisition premium, or bond premium. Therefore, the amortization and accretion adjustments used on this statement may not be consistent with the Form 1099-OID amount because the reporting requirements on the Form 1099-OID are different.

* The Original Price represents the unadjusted price of the security. The Original Price can be used to calculate the original unadjusted cost of the security.

* Long-term capital gains reported by a RIC or REIT appear on Form 1099-DIV only, as noted in the instructions for that form.

* Lots closed due to transfers or journals will not be reflected in the Realized Gain/Loss Statement, or on the Form 1099-B.
