SCHEDULE II — ASSETS AND "UNEARNED" INCOME

Name Frederick L [illegible] III

BLOCK A — Asset and/or Income Source

Identify (a) each asset held for investment or production of income with a fair market value exceeding $1,000 at the end of the reporting period, and (b) any other reportable asset or sources of income which generated more than $200 in "unearned" income during the year.

Provide complete names of stocks and mutual funds (do not use ticker symbols).

For **all IRAs** and other retirement plans (such as 401(k) plans) that are self-directed (*i.e.*, plans in which you have the power, *even if not exercised*, to select the specific investments), provide the value for each asset held in the account that exceeds the reporting thresholds. For retirement accounts which are not self-directed, provide only the name of the institution holding the account and its value at the end of the reporting period.

For rental or other real property held for investment, provide a complete address.

For an ownership interest in a privately-held business that is not publicly traded, state the name of the business, the nature of its activities, and its geographic location in Block A.

Exclude: Your personal residence, including second homes and vacation homes (*unless* there was rental income during the reporting period); any deposits totaling $5,000 or less in personal checking or savings accounts; and any financial interest in, or income derived from, a federal retirement program, including the Thrift Savings Plan.

If you so choose, you may indicate that an asset or income source is that of your spouse (SP) or dependent child (DC) or is jointly held with your spouse (JT), in the optional column on the far left.

For a detailed discussion of Schedule III requirements, please refer to the instruction booklet.

BLOCK B — Value of Asset

Indicate value of asset at close of reporting year. If you use a valuation method other than fair market value, please specify the method used.

If an asset was sold during the reporting year and is included only because it generated income, the value should be "None."

BLOCK C — Type of Income

Check all columns that apply. For retirement accounts that do not allow you to choose specific investments *or* that generate tax-deferred income (such as 401(k) plans or IRAs), you may check the "None" column. **Dividends, interest, and capital gains, even if reinvested, must be disclosed as income.** Check "None" if the asset generated no income during the reporting period.

BLOCK D — Amount of Income

For retirement accounts that do not allow you to choose specific investments *or* that generate tax-deferred income (such as 401(k) plans or IRAs), you may check the "None" column. For all other assets, indicate the category of income by checking the appropriate box below. **Dividends, interest, and capital gains, even if reinvested, must be disclosed as income.** Check "None" if no income was earned or generated.

Mutual funds are priced as of the previous business day's market close when the market is open. Mutual fund positions are priced as of the official market close (typically 4 p.m.) and prices are generally available between 5 p.m. and 6 p.m.
Quotes are delayed at least 15 minutes for securities. If the current market price is unavailable or the market is closed, Fidelity will factor in the most recent closing market price to determine the closing market value.

One or more unpriced positions exist that could affect multiple account balances.

* This is the core account used for trade settlement.

The Most Recent Value is calculated using your position share quantity and the corresponding last trade price from a delayed quote. Positions having quantity amounts updated today use the Updated Total in deriving the calculation. Select the security symbol for more detailed quote information on a particular security.

If securities held in your account are restricted for sale under your company's stock plan rules, Fidelity will use the FIFO method for lots available for sale.

If a closing price is not available for a long-term CD position, the Most Recent Value of the position will be shown as $0.00.

Mutual funds are priced as of the previous business day's market close when the market is open. Mutual fund positions are priced as of the official market close (typically 4 p.m.) and prices are generally available between 5 p.m. and 6 p.m.
Quotes are delayed at least 15 minutes for securities. If the current market price is unavailable or the market is closed, Fidelity will factor in the most recent closing market price to determine the closing market value.
