Investment Rules of the Road

Most investors make their money over time, not overnight. And while investment strategies differ, successful investors seem to follow the same basic set of guidelines. At Edward Jones, we call these guidelines the "Rules of the Road." The first rule is to develop a strategy based on your financial needs and goals. To learn the other nine rules, visit www.edwardjones.com/rules or contact your financial advisor.

Important Information Regarding Your Form 1099-B: Cost basis for "covered" shares will be reported to the IRS. Cost basis for "noncovered" shares will not be reported to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on the Form 1099-B. See Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The Average Cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) method is used for all other securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method for noncovered security transactions, do not rely on these figures. Also, we do not make cost basis adjustments for discounts or premiums on bonds. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors do not provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Don't shun the stock market.

The past several months of market volatility are causing many investors to second-guess their stock investments, yet bad news often creates good opportunities. Emotions can be a powerful short-term driver of stock prices, but in the long haul, it's the fundamentals of earnings and economic growth that truly matter. Your financial advisor can explain why stocks remain an attractive investment. Contact him or her today to learn more. Keep in mind that stock values fluctuate, and you might lose money.

Balancing Retirement and Education Goals

Saving for your retirement and a child's college education can be challenging. Many consider saving for retirement and then borrowing for education costs, but that approach can substantially increase the cost of a college education and potentially derail your retirement. Edward Jones can help you develop an investment strategy to help you work toward achieving both goals. The key, however, is to start now, so call your financial advisor today.

A Retirement Reminder

Individual Retirement Accounts (IRAs) are a great tool for boosting your retirement savings. If you're under the age of 70-1/2 and have earned income, you can establish an IRA. Those who already own IRAs have until April 15, 2013, make their 2012 contribution. Don't let this opportunity for tax-deferred growth pass you by.

Important Information Regarding Your Form 1099-B: Cost basis for "covered" shares will be reported to the IRS. Cost basis for "noncovered" shares will not be reported to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on the Form 1099-B. See Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The Average Cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) method is used for all other securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method for noncovered security transactions, do not rely on these figures. Also, we do not make cost basis adjustments for discounts or premiums on bonds. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors do not provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

High oil prices are getting headlines.

Investors may worry that high oil prices could derail the strengthening economy. However, we believe the economy is strong enough to absorb higher oil prices. Any impact should be small, not severe, so investors shouldn't overreact. While headlines from the Middle East present a risk, a well-diversified portfolio is designed to navigate risky waters and help you work toward your long-term financial goals. Contact your financial advisor for suggestions on how to best position your portfolio.

Take more interest in your income.

If your goal is long-term growth, then investing too much money into such short-term investments as certificates of deposit can put you at a disadvantage. The Edward Jones strategy report "Take More Interest in Your Income" examines the three basic types of income and the role they can play in your investment portfolio. To read the report, visit www.edwardjones.com/en_US/market/news/insights_reports/income_interest.

Important Information Regarding Your Form 1099-B: Cost basis for "covered" shares will be reported to the IRS. Cost basis for "noncovered" shares will not be reported to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on the Form 1099-B. See Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The Average Cost method is used as our default method to calculate cost basis for all other securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method for noncovered security transactions, do not rely on these figures. Also, we do not make cost basis adjustments for discounts or premiums on bonds. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors do not provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Don't take a vacation from investing.

For many of us, summertime means vacation time, and while it's great to get away and relax for a while, the same can't be said of investing. It's important to stick to your long-term investment strategy regardless of short-term events. History has shown that time in the market is more important than timing the market. Make your financial future a priority.

Your finances may be less obvious and easier to ignore than the clutter piling up in the garage and the grass growing taller in your yard. But that doesn't mean you should ignore them. It's important to review your finances at least once a year because just as the markets and interest rates change, so too does your financial situation. During a review, your financial advisor can discuss strategies to help you work toward your financial goals, both short- and long-term. Call today.

Investment Rules of the Road

Most investors make their money over time, not overnight. And while investment strategies differ, successful investors seem to follow the same basic set of guidelines. At Edward Jones, we call these guidelines the "Rules of the Road." The first rule is to develop a strategy based on your financial needs and goals. To learn the other nine rules, visit www.edwardjones.com/rules or contact your financial advisor.

Important Information Regarding Your Form 1099-B: Cost basis for "covered" shares will be reported to the IRS. Cost basis for "noncovered" shares will not be reported to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on the Form 1099-B. See Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The Average Cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) method is used for all other securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method for noncovered security transactions, do not rely on these figures. Also, we do not make cost basis adjustments for discounts or premiums on bonds. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors do not provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Focus on fixed-income principles, not predictions.

While some expected inflation to push interest rates higher and bond prices lower in 2011, fixed-income investment returns generally did quite well. This reminds us that trying to make predictions typically proves to be less valuable than focusing on principles. Despite any challenges we face in 2012, we believe those who abide by the principles of owning quality investments, diversifying and maintaining a long-term perspective can weather the storm. Contact your financial advisor for attractive fixed-income opportunities.

High oil prices are getting headlines.

Investors may worry that high oil prices could derail the strengthening economy. However, we believe the economy is strong enough to absorb higher oil prices. Any impact should be small, not severe, so investors shouldn't overreact. While headlines from the Middle East represent a risk, a well-diversified portfolio is designed to navigate risky waters and help you work toward your long-term financial goals. Contact your financial advisor for suggestions on how to best position your portfolio.

When Summertime Gets Expensive

If your summer plans include a major purchase, you may need a simple, affordable borrowing solution. An Edward Jones Personal Line of Credit can provide funds without liquidating investments designed to help you reach your long-term goals. You can borrow up to 50% of the value of your eligible investments at a competitive rate with flexible repayment options. Call for details. (The Personal Line of Credit is a margin account. Borrowing against securities has risks and isn't appropriate for everyone.)

Balancing Retirement and Education Goals

Saving for your retirement and a child's college education can be challenging. Many consider saving for retirement and then borrowing for education costs, but that approach can substantially increase the cost of a college education and potentially derail your retirement. Edward Jones can help you develop an investment strategy to help you work toward achieving both goals. The key, however, is to start now, so call your financial advisor today.

Important Information Regarding Your Form 1099-B: Cost basis for "covered" shares will be reported to the IRS. Cost basis for "noncovered" shares will not be reported to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on the Form 1099-B. See Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The Average Cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) method is used for all other securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation method for noncovered security transactions, do not rely on these figures. Also, we do not make cost basis adjustments for discounts or premiums on bonds. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors do not provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.
