Beneficiary Information Accurate?

the last time you reviewed the beneficiaries on your account. If it's been awhile, Valentine's Day may serve as a good reminder to do so. Making sure your beneficiary information is up-to-date, and that you've named both primary and secondary beneficiaries, will help ensure your assets are distributed according to your wishes, either to those you want and to those who matter most to you. Your local Edward Jones team can help you with this process.

Steps to Consider Before April 15

ight around the corner. Here are three things to consider as tax deadline arrives. Get organized - Many people waste the time it takes to organize their tax records. Make IRA contribution - Use this tax-advantaged savings to contribute the maximum amount to your IRA. Consider electronically - If you expect a tax refund, filing electronically can mean getting your refund three to six weeks earlier than filing by mail.

Steps to Consider Before April 15

tax time is around the corner. Here are three things to consider before the tax deadline arrives. Get organized - Many people underestimate the time it takes to organize their tax records. Make IRA contributions - Use this tax-advantaged savings opportunity to contribute the maximum amount to your IRA. Consider filing electronically - If you expect a tax refund, filing electronically can mean getting your refund three to six weeks earlier than filing by mail.

For Adopting a Systematic Investing Habit

It's good to have goals. Automatically investing part of each paycheck into a retirement account is one habit you can proudly establish and maintain. Talk with your financial advisor to learn more. (Systematic investing does not guarantee a profit or protect against loss. This strategy involves continual investment in securities regardless of fluctuating price levels of such securities. The investor should consider the financial ability to continue the purchases through periods of low price levels.)

ring for Rising Interest Rates

Bonds provide diversification to help reduce risk during a market and are an important part of a well-diversified portfolio. But if interest rates rise, as many experts are preparing for, how will this affect the value of your bonds? Now is an ideal time to speak with your financial advisor to ensure your portfolio is properly positioned for the possibility of higher interest rates.

Parents Day

Parents Day, Sept. 13, is an ideal time to think of ways to leave a legacy you desire for your grandchildren. This includes protecting financial independence and working with legal and tax professionals to create a comprehensive estate plan. Grandparents may quickly pass, but your efforts to provide for your grandchildren will be felt for years to come. Edward Jones, its employees and financial advisors are not estate planners and cannot provide legal advice.

Investing Systematically

Averaging helps build wealth steadily and systematically. When you invest a fixed amount each month, you buy more shares when the price is lower and fewer shares when it's higher. Contact your advisor to learn more. Systematic investing does not guarantee profit or protect against loss. Dollar cost averaging, a common investment strategy, involves continual investment regardless of fluctuating price levels, so consider your financial ability to continue purchases in periods of low price levels.

Important Information Regarding Your Form 1099-B: We will report cost basis for "covered" shares to the IRS. We will not report cost basis for "noncovered" shares to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on Form 1099-B. See the Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The average cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) lot relief method is used for all securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation or lot relief methods for noncovered security transactions, do not rely on these figures. Also, we are required to calculate and report amortization and accretion adjustments for covered taxable bonds using "default" methods specified by IRS regulations. We do not make cost basis adjustments for discounts or premiums on non-covered taxable bonds. We do make adjustments on non-covered tax-exempt bonds purchased at a premium as specified by IRS regulations. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors cannot provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Important Information Regarding Your Form 1099-B: We will report cost basis for "covered" shares to the IRS. We will not report cost basis for "noncovered" shares to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on Form 1099-B. See the instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The average cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) lot relief method is used for all securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation or lot relief methods for noncovered security transactions, do not rely on these figures. Also, we are required to calculate and report amortization and accretion adjustments for covered taxable bonds using "default" methods specified by IRS regulations. We do not make cost basis adjustments for discounts or premiums on non-covered taxable bonds. We do make adjustments on non-covered tax-exempt bonds purchased at a premium as specified by IRS regulations. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors cannot provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Important Information Regarding Your Form 1099-B: We will report cost basis for "covered" shares to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on Form 1099-B. See the Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The average cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) lot relief method is used for all securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation or lot relief methods for noncovered security transactions, do not rely on these figures. Also, we are required to calculate and report amortization and accretion adjustments for covered taxable bonds using "default" methods specified by IRS regulations. We do not make cost basis adjustments for discounts or premiums on non-covered taxable bonds. We do make adjustments on non-covered tax-exempt bonds purchased at a premium as specified by IRS regulations. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors cannot provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.

Important Information Regarding Your Form 1099-B: We will report cost basis for "covered" shares to the IRS. We will not report cost basis for "noncovered" shares to the IRS. The IRS may require you to report the cost basis data and gain/loss items from your Form 1099-B onto Form 1040, Schedule D and Form 8949 (Sales and Other Dispositions of Capital Assets), as indicated on Form 1099-B. See the Instructions for Form 1040, Schedule D, and Form 8949 for complete details on how to report this information on your tax return.

The average cost method is used as our default method to calculate cost basis for domestic open-end mutual funds. The FIFO (first-in, first-out) lot relief method is used for all securities unless otherwise indicated at the time of sale. If you have used any other cost basis calculation or lot relief methods for noncovered security transactions, do not rely on these figures. Also, we are required to calculate and report amortization and accretion adjustments for covered taxable bonds using "default" methods specified by IRS regulations. We do not make cost basis adjustments for discounts or premiums on non-covered taxable bonds. We do make adjustments on non-covered tax-exempt bonds purchased at a premium as specified by IRS regulations. The cost basis information for noncovered securities transactions is believed to be reliable, but its accuracy and completeness are not guaranteed. Therefore, this information should not be relied upon for tax preparation without independent verification by your qualified tax advisor. Edward Jones, its employees and financial advisors cannot provide tax or legal advice.

LT indicates a long-term gain/(loss), ST indicates a short-term gain/(loss), and Unknown indicates that we did not have enough information to determine the cost basis and/or holding period.
