	Page 6 of 10	
l		

List the source, type, and amount of earned income from any source (other than the filer's current employment by the U.S. government) totaling \$200 or more during the reporting period. For both the filer and filer's spouse, list the source and amount of any honoraria. List only the source for other spouse earned income exceeding \$1,000. See examples below.

EXCLUDE: Military pay (such as National Guard or Reserve pay), federal retirement programs, and benefits received under the Social Security Act. INCOME LIMITS and PROHIBITED INCOME: Be advised that the income limit and prohibited income may apply to you after you are on House payroll. The 2015 limit on outside earned income for Members and employees compensated at or above the "senior staff" rate was \$27,225. The 2016 limit is \$27,495. In addition, certain types of income (notably honoraria, director's fees, and payments for

professional services involving a fiduclary relationship) are totally prohibited for Members and senior staff.

For interest-rate sensitivity, Moningsiar obtains from fund companies the average effective duration, Generally. Moningstar destribes a fixed income funds interest-rate sensitivity based on the effective duration of the Moningstar obscriber of the Moningstar pond Index (MKBI), which is currently three pends brands whose average effective duration is between 25% to 75% of MCBI average effective duration; funds whose average effective duration is the manual form of the MCBI will be classified as a worked of the MCBI will be considered to the manual worked of the MCBI will be considered to the manual worked of the MCBI will be considered to the manual worked of the MCBI will be considered to the manual worked of the manual worked of the MCBI will be considered to the manual worked on the manual worked of the manual worked on the manual work

For municipal bond funds, Momingates also obtains from the companies the average effective duration. In these cases are all configurates are at value of the associated and a should be a hollows:

In Limited. 4.5 years or less; IoN Moderates more than 4.5 years, In but less than 7 years and IoN Extantive; more than 7 years, In addition, for non-LS taxable and non-US demicipal freed income addition, for non-LS taxable and non-LS demicipal freed income and a static duration breakpoints are used; IoN Limited; less than 10 or equal to 5.5 years.

Average Effective duration

Average effective duration provides a measure of a fund's

interest-rate sensitivity. The longer a fund's duration, the more
sensitive the fund is to shifts in interest rates.

Average Effective maturity is a weighted average of all the institutes of the bonds in a portiolic, computed by weighting each bonds effective maturity by the mantet value of the each bonds effective maturity by the mantet value of the each points.

## security.

Average weighted price is computed for most bond funds by Average weighted price to each bond by its relative size in the portfolio. This number reveals whether the fund favors bonds selling at prices above or below face value and can also serve selling at prices above or below face value and can also serve as an indicator of interest-ate sensitivity.
